### **Online Sales of Training Course Places**

We are a start-up training company offering training in Traditional Scottish Spiritualism. Selling two-week courses with training from Scottish Mediums set in Spiritualist Churches.

The business is being formed to address an issue in the USA Spiritualist movement which the Scottish movement has the solution to. There are not enough Spiritualist Churches to provide religious support to the movement, or to train Mediums. Therefore, the training that does occur is to a very large part unorganised and not exactly meeting the Scottish standards.

Scotland has a very high per capita number of Churches. The business was formed when a small number of American spiritualists were given a tour around several Scottish Churches and were able to compare the Scottish situation to the American position.

Courses will be held in Spiritualist Churches. This is an independent training business which aims to train American Mediums how to set up Scottish styled Churches, and to learn Scottish Mediumship methodologies and skills. It has the full ongoing support of a number of those churches.

The course locations in 2020 are just outside of

There is a very active USA Mediumship community on Facebook. There is also a very large industry in the USA of Psychic Fairs held across the country by several large businesses.

The role is to identify suitable candidates on Facebook and engage, screening and setting up online meetings with a Scottish Medium to demonstrate and discuss. Then close and book.

There is a presence from the company at approximately three Psychic Fairs a month in the USA and it is expected that sales leads will also be generated from here for you to work with.

You will be paid by results on a scale in proportion to how much work you do to close the sale. Paid only when deposits are paid. You can be either self employed or on the payroll.

Course places are in 2020 and 2021.

This would suit someone with a sales background, working from home and able to adapt hours to suit the target market. You must be able to demonstrate an understanding of the religious beliefs of Spiritualists in the UK to the American market. This can be learned but some background in that area would be extremely helpful.
